To access these tools, select the Markup icon (a pen in a circle) • Signing Documents - With the Markup tools for editing PDFs, you can even virtually sign a document with your own signature.

For more videos • Editing a Clipboard Image - If you copy an image to your Clipboard from another app, you can quickly edit what's on your clipboard in Preview.. Alternatively, choose File --> Open New From Clipboard in the menu bar • Filling Out Documents - When you open up a PDF in Preview, there's a whole toolbar of tools that you can use to fill out blank boxes.. To do so, copy an image, open the Preview app, and use the Command + N keyboard shortcut.
